

## [Study # 1] – Newsletter Greetings & Accompanying PDF'S

### Greetings

Verse of the day:

***2<sup>nd</sup> Timothy 2:7 KJV “Consider what I say; and the Lord give thee understanding in all things”***

A very interesting verse where the Apostle Paul says that if you consider what he says, **“The Lord”** will give you understanding. **Please note:** without the Lord’s understanding the Bible will actually be Greek to whoever reads it, [pun intended].

There are now millions of Christians who believe that God, who created the Heavens and the Earth was not able to preserve His Word and they willingly accept the new bibles on the market which need to be different because of copy right laws. Most people probably don’t know that there are no copy right laws on the King James Bible. You can start printing them in your basement legally if you like. God’s Word should be able to be freely printed without man’s law’s prohibiting it. But guess what, man’s law’s are not prohibiting the printing of God’s Word. The King James Bible has always been available for us.

Through propaganda attacks on the King James Holy Bible came the hundreds of new modern **man’s improved** so-called bibles. Instead of accepting what the most brilliant men on the planet who gave us the King James Holy Bible Pastors still use their “kindergarten Greek” for their interpretations and Scholars change God’s Word to what they think it should be. Some of the translators who actually debated in Greek and Hebrew. One spoke fifteen languages and one that had read through the entire Hebrew Bible by age six. Information on how qualified the forty-seven godly King James translators were is readily available to anyone wishing to explore history.

Every Christian should be concerned enough to find out if they really are reading God’s Word. With all the hundreds of new changed versions, they could be reading something that originally started with **“Yea, hath God said”** (Genesis 3:1) **to cast doubt on God’s Word.**

To understand God’s Holy Word we need a Holy Bible. The King James Holy Bible is **God’s Word to us in English.**

**Please note:** We are involved with a Christian Ministry in India and are consequently developing a video studies series titled “Understanding Your Bible” which we will be forwarding to our subscribers as well. This series should be very informational to everyone interested in knowing more about God’s Word. Finding out that the Bible is quite understandable when you are actually holding God’s Word in your hands and are **rightly dividing who is being spoken to**, will be a real blessing in your life. Series Section #1 is the first segment and additional segments will follow.

Blessings
